School or organization name: Kamla Nehru Public School

Co –presenter name: N/A

Area of the world from which you will present: Phagwara , Punjab (India)

Language in which you will present: English

Target audience(s): Students, teachers, and all the others who are interested.

Short session description: Making of Global Citizens for Better Future

Long session description:

A global citizen is someone who identifies with being part of an emerging world community and whose actions contribute to building this community's values and practices or we can say Global citizenship is a cross-cutting theme across Curriculum for Excellence and is fully embedded across its experiences and outcomes. It is a core aspect of Learning for Sustainability.

I too believe that global citizenship is essential for young people to gain the skills, attributes and knowledge to be successful in their chosen careers, and for the progress and development.

Our institution also provides a unique environment in which students can engage in dialogue and debate across different cultures and disciplines, both informally and through the Global Citizenship Programme.

So, We really need to adapt the global citizenship in our souls for making the future better than the better.
